

AMRQ Hospital's configuration to treat diseases:

Medicine: MBBS,MD,DM,BAMS,BHMS

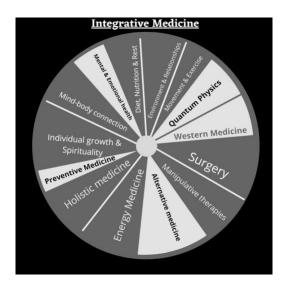

2) Energy body \longrightarrow

Neuro Memory Cellular Programming, Shoonya kriya, Ethereal healing, Marma chikitsa

3) Mental body \longrightarrow

Classes on Quantum Mechanics, Counselling on daily lifestyle and food habits, Cognitive Behavioural Therapy, Neuro-linguistic Programming

What is Integrative medicine?

Integrative medicine is a broad spectrum of medicinal streams, treatment methods and care systems. It has its focus on health, rather than on the disease. In contrast to conventional medicine and its treatment, the approaches of Integrative medicines are comprehensive. It brings together all the medicinal knowledge -

- 1. Conventional Medicine(Allopathy)
- 2. Surgery
- 3. Manipulative therapies
- 4. Alternative medicine
- 5. Energy medicine
- 6. Holistic medicine
- 7. Preventive medicine
- 8. Individual growth & Spirituality.
- 9. Mind-body connection
- 10. Mental & Emotional health.
- 11. Movement & Exercise.
- 12. Relationships & Environment.
- 13. Diet, Nutrition & Rest.
- 14. Quantum physics and its technologies.

Gatih: Upanishad
