

PHYSICIANS' TEAMWORK BREAKDOWN STRUCTURE

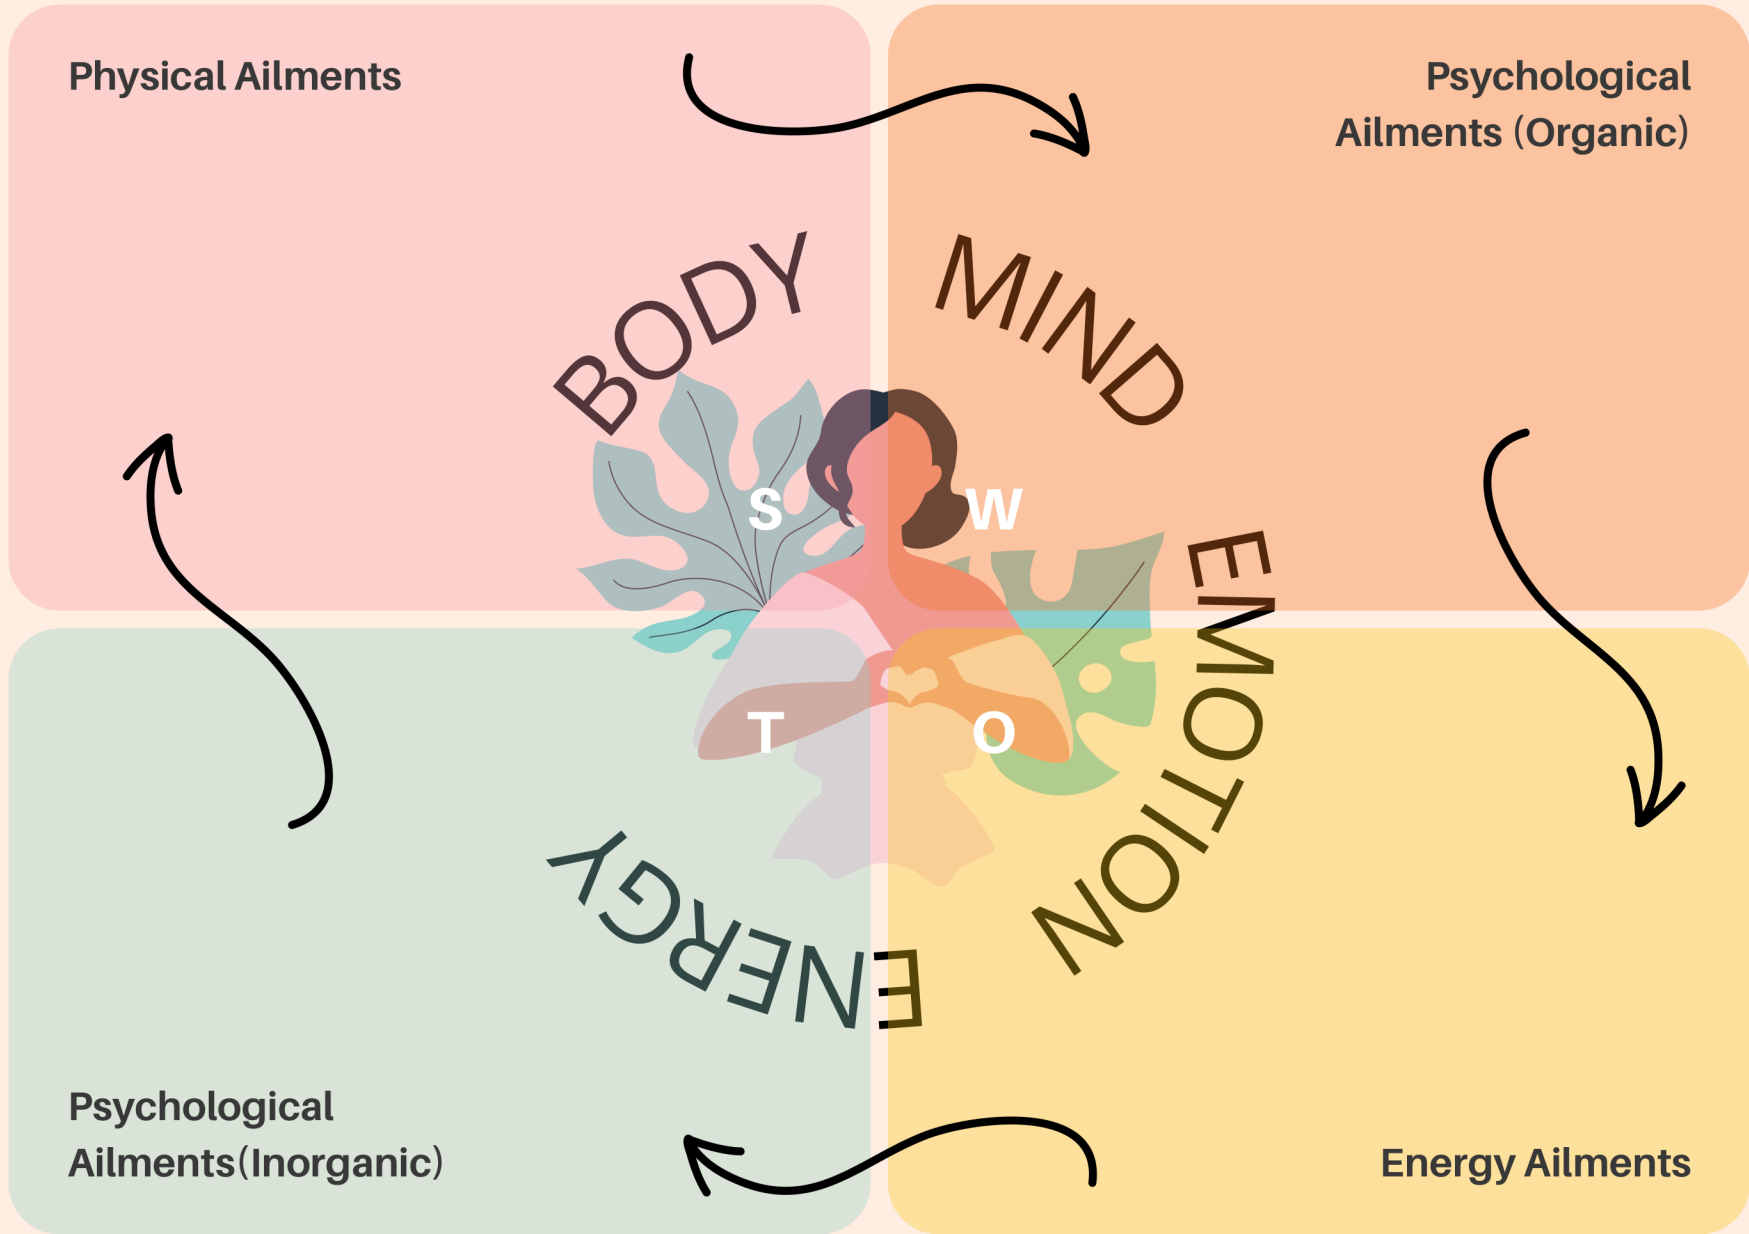

AMRQH™ Services

In today's world, the idea of health and medicine is of instant relief. It is the impatience and fear of the unknown that drives this feeling of wanting everything in 'Fast Track'. When we talk about health, it is holistic, all these things mentioned have to be aligned within this Organism

Ill health, therefore, is a misalignment of these faculties with each other. And it takes time and effort to align these key aspects for the proper functioning of a being. There are some natural laws which healthcare has to consider before diagnosing and treating an individual. This consideration and holistic approach will lead to disease relief, prevention and sustenance of recovery.

Today, Quantum science is saying this human system is a holographic expression continuum of **THOUGHT, EMOTION and ACTION. Therefore Medical Sciences have to be integrated in terms of methods and bylaws. Therefore, The future of healthcare is Quantum and holistic healthcare.**

We at Arkad Medical Research Quantum Hospital follow the quantum and natural laws to scientifically address any disease. Our healthcare system consists of:

1. Medical OPD: MBBS, BAMS, BHMS, BSMS and MD doctors will consult and address the grievance of a patient who walks in with an appointment. (GpL1)

2. After the patient is examined by the GpL1 doctor, the GpL1 will connect the patient to the IDC Team for a holistic approach by different specialists. The whole prescription & treatment process will be supervised and analyzed by the set of Super Speciality doctors or the Medicine Experts of distinct departments. After that, the finalised medications would be assessed and reviewed by SMMS™ Team.

Our doctors prescribe only what is very much needed and provide distinct healthy methods physically, mentally and energy-wise. Most diseases are internal and chronic. So, we need to take care of mental and energy health and thereby influence physical health.

The body can move only because there is a certain tension, that causes it to change position. In utter silence, your body remains still and unmoving. When you are relaxed inside, the body immediately reflects that relaxation. In the same way, when you are confused, irritated, disturbed, frustrated or in a sense of unease, your body reflects that disease too. Health means your body is working well, your mind is working well and your energy is supporting the two making sure nothing goes wrong. When the life process is in full flow, that's health.

AMRQH™

All of these are housed in our hospital, equipped with a consecrated space "Gatih Upanishad", emitting certain vibrations of peace and wellbeing.

Be assured to walk in and feel the peace.

A PAN GLOBAL-BASED HOSPITAL

AMRQH™ offers a variety of consultancy services and programs that provide precise diagnosis, correct medications as well as methods for anyone to attain physical, mental and spiritual well-being. Its offerings allow participants to deepen their experience of life, and reach their ultimate potential. AMRQH™ has its footprints across the globe, it is a PAN-global-based hospital following the Shoonya ecosystem.

We are a chain of Neurologists, Neurosurgeons, other medical experts, hospitals, lawyers, advocates, professors, spiritual teachers etc. under the department of the Integrative Doctors' Council (IDC). In various corners of the world, we have doctors and other professionals as the single point of contact. Based on the needs and demands of the situation, the signifying single point of contact can bring the concerned team/patient/individual in contact with the IDC professionals and thereby the whole team (on-site/off-site, G2P Consultation) makes sure, it can give holistic consultation to the needy - Body, Mind and Energy.

Because the infrastructure setting of AMRQH™ is intended to be across the globe, AMRQH™ is handling the OPD cases at its immediate disposal, branching out the IPD cases to its allied hospitals that fall within the range of the patients/clients. It covers metro/non-metro cities and rural places providing Government services along with Private services.

OUR VISION:

**"HEALTH AND WELLBEING TO ALL IN THE
BEST HOLISTIC MANNER POSSIBLE"**

**We run on this principle: Either you can
know HEALTH or you know DISEASE- We
will help you choose better.**
